Course Offering Descriptions: ActuaryExamTutor.com provides real live tutoring for students preparing for actuarial examinations. The tutoring is performed by top instructors to meet the personalized needs of each individual student. One-on-One tutoring sessions are scheduled by the students on an as need basis. The student and their personal instructor review the material/problems that the student needs help in. The instructor and student develop a strong working relationship during the sessions with the one goal of helping the student pass his/her exam. The sessions are customized to meet the needs of each individual student., , Group classes are coming soon!

About the Instructors: The staff of instructors at ActuaryExamTutor.com are carefully selected to meet two major requirements. They must have an extraordinary background and grasp of the exam material that they are providing tutoring in for our students and they must be very proficient at explaining actuarial material/concepts/methods of problem solving in ways that can be understood by the student. Please view our website at www.actuaryexamtutor.com under 'Our Instructors' to view some individuals of our staff.
